SUBSCRIPTION—\$5.00 PER YEAR

Council Picks New City Manager Budget Gets First Reading Nod Additional Bids On Sewers Read

Wednesday the Belle Glade City Commission moved to hire 39-year-old Cleveland B. Talmadge as city manager at a \$6,800 annual salary. Talmadge, with two years municipal experience at Portsmouth, Va., and other favorable accomplishments, was picked following an interview last week by the council.

A unanimous vote to hire Talmadge on or about Oct. 1 followed Commissioner H. W. Lanier's motion and approved a \$800 allowance to move him.

On first reading the council adopted a \$466,950.50 general fund and \$164,000 water department budget based on a 12.5 mill tax. The millage remained the same for the second year, but taxable real and personal property increased \$88,520 based on 70% valuations.

Inter-Country Construction Corp., Ft. Lauderdale, was apparent low bidder on force main and collection line pipe for the sewer system. The \$265,952.40 base bid was among eight opened and bids on sewer system for the \$267,000 available in the recent bond issue.

The engineers will compile and return the report on Friday at about 4 p. m. when the council will act on the remaining section of the system.

In other action the council passed a battery of ordinances pertaining to bankruptcy and closing out sales, fake sales and advertising, on first reading.

Passed on second reading an ordinance creating a juvenile traffic court.

Accepted bids on cattle-grazing rights on city property and bids on water meters; both given to city manager for awarding.

Heard that Avenue E right-of-way acquisition by the county was 50% complete.

First Week's Enrollments Confirm Increase Over Last Year's Figure

Enrollment figures at Belle Glade Elementary and High School as of Sept. 8 were announced by principals of the two schools. The figures reflect a considerable increase over last year.

Elementary School
Principal Carl Crawford said total enrollment at the elementary school Monday was 663 with 10 more anticipated.

The figure is a considerable increase from last year's total of 600. Complete information on the jump over last year was not available Monday.

Enrollment by grades this year was: 1st, 156; 2nd, 111; 3rd, 128; 4th, 136; 5th, 118; 6th, 96.

Discussing the school year, Morris said, "We feel we have an outstanding faculty this year. We sincerely appreciate the attitudes of the students body and the fact that we're off to a smooth start."

No definite word is available on the proposed cut in enrollment for the school year.

Some of the student organizations and clubs are already in operation and others will start in the near future. Four new classes are in operation as well as the music and vocational agriculture buildings.

Morris said that throughout the school year a mimeographed school bulletin was planned to inform students and parents of information vital to the school.

On next Monday he and assistants will interview applicants at the office of the Florida Employment Service office on SE Avenue D, to fill approximately half dozen positions for an expansion program.

Mr. Anderson says "We are advertising for applicants for specific jobs and want to use local help entirely, if we are successful in securing the high level of personnel needed."

(Continued on Page Eight)

New Policeman Set For South Bay

South Bay Councilman moved Monday to hire another policeman for the city to bring the force to three. They set no date or issued other instructions at this time for adding the new man.

With Police Chief Marvin Davis, Patrolman Louis Woodham and the new man, the city will have round-the-clock protection.

In other action the council approved two ordinances setting qualifications for the city clerk and for registration.

Candidates have until Sept. 20 to file for the city clerk position and until Sept. 28 for the registration position.

The council also approved the purchase of a new fire truck for the city.

The council granted Mr. F. Farmer's request for a street near his store and moved to act on it.

(Continued on Page 2)

Guests Are Slated For Legion Dinner

Boys-Girls State representatives from Belle Glade who attended summer sessions on government at Tallahassee under the sponsorship of the Department of Florida American Legion will be guests at the Department of Florida American Legion Post 20 supper at 8 p. m., Commander W. E. Eggleston announced this week.

Parents of Carl Crawford, son of the late Carl Crawford, are being invited to the dinner.

The dinner, under the direction of the post auxiliary, will consist of a main meat dish and members are asked to bring a dish to supplement the meal.

The guests will present short talks on their experiences at Tallahassee. Sending students to this summer training session at municipal, state and county government is a joint undertaking of Post 20, its auxiliary and Elks Lodge 1716 of Belle Glade.

Flora Miller, Jr., Administrator of Belle Glade Memorial Hospital in thanking donors of equipment has written them:

"The most gratifying feeling in connection with a donation is to find that the end result has been far exceeded the expectations."

This can be said of the heart monitor unit, known as the tele monitor unit, given to the Belle Glade Memorial Hospital thru the generosity of the Beta Sigma Phi Sorority.

I know that you will be interested in the following quotation from the Beta Sigma Phi Sorority:

"The best feeling in the world to hear the definite heart beat all during an operation; Mrs. Whidden does not attempt to fulfill the anesthetist job on a major operation in the Belle Glade Memorial Hospital without the use of the heart monitor."

The surgeon on the staff has been heard to say that the securing of the heart monitor thru which we will be within the next week. Glades tax payers will pay between \$18.10 and \$19.20, based on taxable valuations.

The difference lies in the millage rates on the south side of the dividing line approximately at Ave. L, Belle Glade city limits.

These figures are a drop for Glades folk of 37.10 in the north, and 36.20 in the south, since last year's millage was \$6.30 and \$4.30 respectively.

County-wide
County 5.38
County School Board 7.50
Flood Control 7.50
Plus Glades:
Port Of P. B. 1.07
Pahokee Hosp. 4.50
Belle Glade Hosp. 3.40
The Pahokee hospital district dropped from 9.5 last year, Belle Glade district dropped from 7.5. Additional taxes under the sub drainage districts are figured on an acre basis.

County Tax Levy
Drops 14 Mills

Monday Palm Beach County Commissioners slashed the tax levy to 5.38 mills for the coming year, which was a drop of more than 14 mills from last year's levy.

At the same time the board approved a tentative budget of \$124,000, a decrease of about \$3,000, and set Sept. 22 for a hearing and final passage of the budget based on a valuation of more than \$600,000,000.

The board appeared pleased at their action and were quick to indicate that the levy would be the lowest in the history of the county.

A break down presented to the board by Comptroller R. B. McKee, the millage was set at .446, public improvement, .094, ocean boulevard, .094, interest and sinking funds 2.42.

Kirk and Lee in CONSTABLE RUN-OFF

Glades Office Building Set To Good Use Now
Office Manager Reports

Glades residents have been making good use of the new Glades Office Building since its formal dedication Aug. 31 and subsequent opening Sept. 2, according to Mrs. E. L. Pope, of the manager.

Mrs. Pope said many inquiries had been received concerning tags, titles, building permits and other matters.

The building numbers for the telephone exchange are 3-2079 and 3-2078.

A young West Palm Beach business man topped a 24-year dynasty Tuesday and the incumbent lost his chair to a political newcomer.

John B. Dunkle was successful in his bid for the Democratic nomination for Clerk of the County, which he controlled as a Republican opponent. Dunkle won 12,297 to 10,008 over J. Louis Carter, the incumbent.

In the Glades, Edgar W. Maxwell won in Canal Point, Chosen and Belle Glade's 38th precinct, carried at least 16 precincts all together but lost by some 1,900 votes to incumbent Terry Carter.

Before the election, incumbent Wilbur C. King appeared victorious in his bid for re-election from Group One, Railroad and Public Utilities Commission.

A run-off between incumbent Terry Carter and Jim Blanton of St. Augustine is necessary in the Group Two contest.

All candidates with no Democratic opposition were automatically eliminated. The few Republicans in November are: County Commissioner Ben Runk, W. B. Baly, Prosemer.

(Cont'd on Page 8)

Lower Mill Rate For Glades Folk

According to millages announced by the county tax assessor's office, some of which have been certified, others which will be within the next week. Glades tax payers will pay between \$18.10 and \$19.20, based on taxable valuations.

The difference lies in the millage rates on the south side of the dividing line approximately at Ave. L, Belle Glade city limits.

These figures are a drop for Glades folk of 37.10 in the north, and 36.20 in the south, since last year's millage was \$6.30 and \$4.30 respectively.

Holland Carries Glades In Race

In winning the Democratic nomination to the U. S. Senate, Spessard Holland had the support of every Glades precinct but one, 38A at Belle Glade. There the vote was 5-1 for Claude Pepper.

Before Pepper conceded his defeat shortly after 10 p. m. Tuesday, Palm Beach County voters had given Holland a lead of more than 6,000 votes.

Evans, January Win Council Seats Few Voters Take Trouble To Ballot

Democratic voters—less than half of those registered in Palm Beach County—expressed their opinions at the polls Tuesday. They voted in a new Clerk of the Criminal Court of Record, re-nominated a U. S. Senator and County Commissioner and created run-off situations for two school board members in two districts and a Glades constable race.

Kick-Off Banquet
Planned Sept. 11
By Athletic Group

During the second meeting of the year Sept. 3, the South Shore Athletic Club agreed to sponsor a football kick-off dinner Sept. 11 at the elementary school cafeteria at 7 p. m., according to W. J. Norris, chairman.

Those expected to attend the dinner are the football team, their parents, cheerleaders and sponsor, coaches, club members and wives.

During the business session the members plotted their course preparatory to the opening football game with Punta Gorda Sept. 18.

This included authorization to purchase an extra amplifier to balance the loudspeaker circuit and correct the feedback on the speakers. Another item cleared the way for the issuance of special car passes at the football game to invalid spectators.

R. E. Hottel announced that season tickets to five home games are, still available. Cost is \$4.00 and persons may make reservations by contacting Hottel or Miss Herring at the high school office.

Admission will be \$1.25 for adults at the gate.

Hottel said tickets are available now at the high school office and may be called for now.

In other action the members voted to continue meeting on Wednesday nights; next meeting Sept. 17, 7:30 p. m.

Will continue to operate the ticket booth, assist police with the traffic problem and be of general use and assistance at home games.

The Organization
The South Shore Athletic Club is composed of one or two representatives from Belle Glade, civic organizations, coaches, principals and members-at-large from the communities on the south side of Lake Okechobee.

Chairman Norris was named to that post Aug. 13 with Harold McKee, vice chairman and publicity director, Charles McKee, treasurer, and other members including Vince Marquess, Bill Burke and Thornton Phillips. Pellon Morris is secretary.

Charles Godwin, South Bay School principal, and Clarence representative.

Civic club members include: Throp, City of Belle Glade, Mark Challinor, C. E. Crish.

TWELVE-FOOT KENAF at Everglades Experiment Station (top) with Mills Byrum and Mr. Fisher holding up to demonstrate the height. Dr. Allison (front of tractor) is estimating the height of the kenaf. The harvester shown was built by Mills Byrum of the USDA crew at the station and averaged approximately one acre of kenaf per hour. Bottom picture shows the taking of the kenaf fiber from the harvester and separating into bales of proper size. From this rack the fiber is moved to the retting place by field wagon.

Kenaf Research Production Possibilities Boosted By Station Work

Kenaf fiber production in Continental U.S. has almost closed the valley of self-sufficiency thru Bureau agricultural stagnation.

Kenaf grows prolifically in the Glades although it is susceptible to disease and insects. Great progress has been made at Everglades Experiment Station in the development of new varieties resistant to these as well as in the discovery of pre-ventative and curative controls.

Workable mechanical harvesting, cleaning and drying make these four-to-eight-foot length fibers ready for the manufacturer.

These manufacturers have taken fibers grown, harvested and cleaned by the Everglades Experiment Station into their own factories and satisfied themselves of the qualities of the fiber and of the ease of processing on present machinery.

The President of the Soil-Bureau Manufacturers Institute has reiterated the statement that industry is ready to substitute Kenaf for 20 to 25% of the annual needs of his group at a competitive price with imported jute. This means an annual requirement of 32 to 50 thousand acres of growing Kenaf.

The Post Office Department, after tests, gives Kenaf an edge on Jute for wrapping twine and will place an order for substantial twine made of Kenaf for the monthly delivery. The U. S. Engineers at New York have okayed Kenaf for sandbags and for camouflage cloth.

A large weaver in Georgia will place an order immediately for hundreds of thousands of pounds of Kenaf fiber for making carpet backing.

The President's Commission on Increased Industrial Use of Agricultural Products says: "It grows well in the Cotton Belt, though it would probably bring a somewhat lower return per acre than cotton. The possibilities are worth further exploration, in part because of the importance of having a domestic source of this type of fiber in a period of national emergency. The area proposed for extended trial is 10,000 acres. The ultimate extent of the useful acreage might go as high as 200,000 acres."

Mills Byrum of the USDA

tending were Mr. and Mrs. Major Lee and Nancy, Miss Evelyn Lee, Scott Lee, Sharon, Rodney and Linda Booker, of Cleveland, Mr. and Mrs. Marvin Lee, Janie and Ronny.

Mrs. Evelyn Hester has returned home from Belle Glade Hospital.

Mr. and Mrs. W. F. McNeil visited with Mr. and Mrs. James King of LaBelle.

Mrs. Marjorie LeFlis and children of Belle Glade visited with her parents Mr. and Mrs. C. A. Devels.

Mr. and Mrs. John Johnson were Sunday guests of Mr. and Mrs. Thelmon Rayburn at their home in Runyun.

Mr. and Mrs. C. H. Pope spent Sunday at Jensen Beach with Mr. and Mrs. W. E. Weiss, Dr. and Mrs. Nick DeStefano returned to their charge in Lake Harbor, after spending their vacation in the Adirondack Mountains in New York State. When they entered the Parsonage they were pleasantly surprised in finding the pantry well stocked with provisions of food and the linen closet fully supplied with linens.

Mrs. H. D. Merriam, Mrs. John D. Hemphill and Mrs. Maurice Bailey of South Bay visited Mrs. Paul Davis and Miss Aileen Hemphill in Miami on Wednesday.

Meteorologist Gordon

(Continued from Page One)

gave a report on the "28" hurricane on Tuesday. The southern tip of Florida is subjected to the greatest incidence of the tropical hurricane in the US, and we are more likely, percentage-wise, to be affected by these coming in September and October than at other times.

Of these hurricanes that have originated in the breeding grounds — the south Atlantic and the Caribbean approach the United States in one way or another.

During the past 70 years we have averaged eight hurricanes a year, nine during the past 40 years, and ten annually for the past 20 years. We have had a serious hurricane since '50. In 1921 there were 33 hurricanes but one storm did not affect the state in any way.

During the '28 Cane the maximum wind was 105 miles per hour and the tides brought a bay and ocean together over Miami Beach where the hurricane depth of water was two feet.

The barometer in '28 registered in the neighborhood of 27.20, with the lowest recorded land pressure in the world coming during the storm over the Keys in 1933 when 27.15 was registered.

The law of averages indicate that a storm such as that in '28 may be expected once in 100 years.

Hurricanes generally lessen 4% per-hour in intensity over land.

The frequency of hurricanes has diminished approximately 5% in modern times over recorded incidence of the early days.

As an example of what planning and preparation does, Mr. Dunn estimated that the '28 hurricane repeated today at Miami, without preparation, would do over a billion dollars damage against 75 millions. However, with organization, preparation and action provided nowadays, such a storm would cause less damage and loss of life than did the '28 hurricane when only 10,000 folks were around.

A question period brought some most interesting information from the speaker.

The greatest wind force and areas always occurs on the right of the course of the storm; the highest wind force occurs some distance from the center or "eye" of the storm.

Do not believe that a hurricane may exist more than 24 hours after formation in the South Atlantic without knowing it; when it is within 2,000 miles of Florida's shore or the shore of any Caribbean Island over which we are charged, we send a plane once daily to fly to and through it in addition to having reports from ships at sea and from shore stations.

When the storm nears our coast we send planes in every six hours, and finally have a continuous plane watch, in a round and about the storm.

The establishment of a coastal air chain from Maine to the Texas Gulf coast and on many of the islands, will give us frequent checks on the storms and makes more certain the charting of their course.

"Not for the next fifteen or 20 years do we believe any man-

made control of weather is foreseeable; the force of nature as exhibited in the tropical hurricane is greater than known man-made force; a "he-man" hurricane exerts as much force as is required in electricity by the entire US in one hour; 400 atomic explosions are required to produce the force of a real hurricane.

"Yes, I believe there is available to the Weather Bureau predictions equal to those commonly dispensed by private organizations."

Mr. Dunn related the story of Abraham Lincoln's surveyor, chaffer giving him just previous to each afternoon's ride behind two mules. His reason was "Well Boss, if de mule's ears sticks straight back, it's good weather; if dey's sticking straight up, then it's bad."

The moral to the story is that "A Jakes began the prediction of weather, and they're still at it."

Mr. Dunn's reception by his audience denoted this idea and complimented the Weather Bureau on the sincerity and reliability of its reports.

The normal commitment of long-entred mules in any given group of humans is reduced through education and required qualifications for the position of a forecaster for "them," is the impression voiced by an attentive visitor last Friday.

Esther Williams Pools

To Be Offered In Glades

The Glades has been selected by the Esther Williams swimming pool organization, then as a likely outlet for the famous Esther Williams Swimming Pools.

Mr. Joe Nastav, representative, will be in Belle Glade Monday, September 15, for the purpose of appointing a distributor for the International Swimming Pool Corporation of which Miss Williams is President.

This organization makes four sizes of pools and offers the user a packaged deal, through local distributors.

Miss Williams says "I know that if we could make the world's finest quality home swimming pool at a fair and reasonable price, there would be a ready market for our product the world over."

Higher Yields Increased Profits with ORTHO Products

Here's how ORTHO gives you more for your crop pest control dollar.

- Sprays tailor-made for local insect and disease problems
- ORTHO products are formulated in Orlando especially for Florida growers.
- Expert counsel from specially trained ORTHO Fieldmen
- Fast local pest control service. Your ORTHO Fieldman is always on call.

Attention Belle Glade area growers:

ORTHO recommends these products for Fall pest control— For soil treatment: ORTHO Heptachlor For cereal and corn: ORTHO Nabam Also check the advantages of PEST-B-GON and ORTHO PHS 4 Spray

For information on how these ORTHO products can increase your crop profits contact ORTHO Fieldman Walt Whitaker, Boynton Beach, Phone 3028.

"Order these ORTHO products from your local distributor."

Production Possibilities
(Continued from Page One)
this rate with only three men a tractor driver and two men to remove the ribbons from the machine in hanks, at a top cost of 3 1/2¢ per pound of dry fiber. Mr. Don Fleischer USDA horticulturist and Dr. Thomas Summers have evolved a retting procedure which consists of dunking the full length fiber, previously tied in hanks, into an open canal of moving water for an average of three days. This has produced "a fine a fiber as any of the retted fiber of the Orient" according to the manufacturers.

The procedure for conveying the fiber to the retting plant, its immersion and removal from the Canal mechanically is now the subject of study by the Experiment Station. The temperature and flow of the water affect the final result, particularly the time element, to some extent. The depth — 1, 2 and three feet — of the layer of fiber stretched full length in the canal affects the number of lineal feet of canal required for a given harvest. Whether that one, two, or three feet is immediately under the surface or at the bottom, too, seems to make some difference.

Retting procedure does not involve any waste of fiber brought to the retting site, and because of the working of bacteria the shive and bark are decomposed and slime-off. When the fiber is removed from the Canal, after a proper ret, it is passed through squeeze rolls with water flowing over. This operation actually washes some of the remaining decomposed matter from the fiber. The number of times this operation is repeated depends on the economics of the operation compared to the end use. The fiber is then passed through a mechanical cleaner (see picture) where paddles scrape any unloosened bark or shive away. This operation heretofore done by metal scrapers, wood and sections of old rubber tires and at varying speeds, have given various results.

Mills Byrom's machine is designed not to treat the fiber too harshly in the scraping, thereby resulting in a lesser and less fiber loss. The next step is artificial drying, which is accomplished at considerably less fuel and labor than ramie, for the Kenaf ribbons retted and cleaned as above described are put into the dryer. The shive and bark are blown away the warm air to circulate freely.

The agronomists are searching for a hybrid highly resistant to the nematode (root-knot), resistant to a wilting disease and unpalatable to the insect which punctures the bark on the growing stalk in order to lay its egg. The result one of these punctures is a black spot in the fiber.

Substantial progress has been made according to written reports which show a doubling of usable fiber when compared against the root-knot. Work at the Everglades Experiment Station this year has substantiated that the harvested fiber, retted, cleaned and dried from one acre, harvested in one hour brings 1,000 pounds of dry weight usable fiber. With adjustments emphasized by experience it is conceded that the commercial type harvester may be expected to still do an acre an hour, with greatly lessened waste.

The cleaning operation, in line in one operation is expected also to further eliminate waste. With what is known now, USDA and Everglades Experiment scientists expect a commercial operation will produce 1,500 pounds of high grade usable fiber per acre.

Because 90 to 100 days are required for a crop and harvest should begin not later than June 1, with the last in October, it is expected that the sandwichee in of a kenaf crop before spring harvests and/or before fall plantings, to non-hot crops will aid greatly in the control of the root-knot. Cotton growers and other farmers may find Kenaf a most suitable land conditioner and complement to present crops.

Kenaf is a tropical crop, historically, and it is generally accepted that the Gladeslands around Lake Okeechobee are ideal for quantity and quality production. However, it grows successfully in any of the southern states and many of the midwestern areas, and will do well on marginal lands.

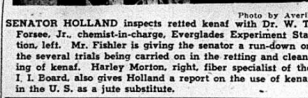

Photo by Everett
SENATOR HOLLAND inspects retted kenaf with Dr. W. T. Forsee, Jr., chemist-in-charge, Everglades Experiment Station. Left, Mr. Fisher is giving the senator a run-down on the several trials being carried on in the retting and cleaning of kenaf. Harley Morton, right, fiber specialist of the U. S. Board, also gives Holland a report on the use of kenaf in the U. S. as a jute substitute.

Kenaf is a tropical crop, historically, and it is generally accepted that the Gladeslands around Lake Okeechobee are ideal for quantity and quality production.

GLADES CHURCH NEWS

The Herald welcomes news items from your church each week. Call WYman 6-2552 not later than Tuesday noon for publication Thursday.

KATHLEEN LIVINGSTON, Church Editor

Revival and Homecoming

Revival services will begin Sunday at the First Baptist Church in Belle Glade and will continue through the following Sunday, which will mark the Annual Homecoming Day for the church. Elder Rubin Eldridge of Fitzgerald, Ga., will conduct the revival. The church was organized in 1949 with eight

members and the church was erected in 1950. It has grown to a membership of 109 and a new parsonage has recently been built. Elder Fred Robbins, pastor, is still working with this growing fellowship of Baptists, who are independent of any organization and carry on as a sovereign body of themselves.

Youth Director At Methodist Church

The Community Methodist Church has employed Larry Drake as a full time Educational Assistant in the church. His specialized duties will be as Youth Director, but he will have oversight of all the educational work of the church school.

Mr. Drake reported for his new position at the church on September 8. He is 28 years old and has an AB degree from Florida Southern College in Lakeland, Florida, with a major in religious education. He spent two years in the U. S. Army

sonage in the immediate future of its property, at the corner of N. W. Avenue C and N. W. 3rd Street, about a street south of the high school. The architect for this project is Chester Albert Cone.

The general plans for the house were approved, and when detailed specifications are complete a builder will be selected and construction started immediately. The house will include two baths and four bedrooms, one of which may be used as a study if preferred. The cost is estimated at \$25,000.00.

Simultaneously with the parsonage project funds are also being raised for an educational wing addition to the present church. Mr. Cone is also working on plans for this addition. The educational wing will be within the next two years at a cost of approximately \$100,000.

Five Baptized At South Bay Church

The First Baptist Church of South Bay held its baptismal service Sunday night. Those baptized were Dorothy Ann Marion, Reba Leathlean, Brenda Sue Kelly, Barbara Nelson and Jimmy Jackson. Announcement made of coming events include a state wide Bible Teaching Clinic to be held at the Northwood Baptist Church, West Palm Beach Oct. 16 at the South Bay Church and Oct. 17 at the First Baptist Church, Cleveland, Florida. Training Union Leadership in the central and work shop at the Central Baptist Church in Miami.

Church Of Christ Scientist

Recognition that true substance is spiritual brings individual growth and progress. This fact will be stressed at Christian Science services Sunday. Bible readings in the Lesson Service "Substance" will include the following (1 John 3:15): "Love not the world, neither the things that are in the world. If any man love the world, the love of the Father is not in him." A correlative passage from "Science and Health with Key to the Scriptures" by Mary Baker Eddy includes this (329:16, 18, 20): "To ascertain our progress, we must learn where our affections are directed. We acknowledge and obey as God... The objects we pursue and the spirit we manifest reveal our standpoint, and show what we are winning."

Episcopal Church School Will Open

Church School begins again at the Episcopal Church of Saint John the Apostle on Sunday, September 14th. Immediately following the nine o'clock service, students are urged and invited to register for their classes. This year, as in the past, classes will be conducted for all grades through high school. All classes will be held at the church parsonage at 225 N. W. Avenue C.

Palmer January

The Reverend Robert N. Huffman, announced the appointment of Mrs. E. M. Livezey as Church School Superintendent. Other members of the Church School Staff include the following: Mrs. S. S. Lovell, Mrs. W. A. Wooten, Mrs. B. G. Smith, Mrs. R. E. Shoemaker, Mrs. J. D. Dabbs, Mrs. J. V. Altman, Mrs. J. H. Maynor, Mrs. H. F. Zumpf, Mr. Tom Chappell, and Mr. Barnes G. Smith. The staff will meet with the Youth Thursday evening, September 11th, at eight o'clock to prepare for Sunday's registration. Formal classes for the following Sunday begin the following Sunday, September 21st.

Boys Plan Reunion

The Belle Glade High School graduating class of 1949 is planning a class reunion. Willis Warren, class president of Orlando requests that all members of the class be present Saturday Sept. 13 at 8 p. m. at Room 6 at the Belle Glade High School. At that time the type of reunion and committees on planning will be named. If out of town members cannot be present all members of the class living in this area are urged to attend.

Fifty-Two Percent Sold For Slughter Monday

Fifty-two percent of the 662 cattle sold at Monday's Glades Livestock Market went to slaughter. The return was \$466,802.98 on the offering which consisted of 140 steers, 53 heifers, 203 calves, 225 cows and 41 bulls. Compared to last week slaughter heifers were steady, calves steady to 50 cents lower, cows and heifers steady to \$1 higher. Stocker steers were steady to 50 cents higher, heifers and bulls steady, calves \$2 lower and cows \$1-2 lower.

Chosen Garden Club Meeting Set Sept. 16

Mrs. S. B. Cowart, 1341 N. W. Ave. L, will be hostess to the Chosen Garden Club at the first fall meeting of the year, Sept. 16 at 3 p. m. Mrs. H. V. Dray, president, will preside. The club will continue to meet every third Tuesday of the month.

Among the interesting places and sights of interest they visited were Disneyland in California, Las Vegas, Nevada, Grand Canyon, Arizona, Yellowstone Natl Park, Wyoming and Pike's Peak and Colorado Springs, Colo. In Alabama they visited relatives and stopped in Gainesville, Fla. to visit their daughter and son-in-law, Mr. and Mrs. Mike Kelly.

Mrs. Mina Murray Is Showered With Gifts At Surprise Luncheon

The home of Mrs. Edward F. Allen was the scene of a surprise luncheon Tuesday, honoring Mrs. Mina Murray. A pink and blue color theme was carried out in the arrangements. The table was laid with a lace cloth over blue, centered with the birthday cake in blue and pink flanked by silver candle holders.

Delicious sandwiches, in pink and blue, congealed salad, cranberry, pink and blue, pickles, nuts coffee and cakes were served with cake and ice cream for dessert.

The honoree was showered

with many lovely gifts.

The guest list included the Messadems, Messadems, James Fraser, Thomas Williams, I. L. Price, Irvin Zump, Urban Felsing, John Randolph, Myron Ludlow, Spence Whitlock, C. D. McClure, J. L. Scott, Carl Cowell, Emma Harris, Sam Crissman, Mary Lou Raulerson, Tommy Parker, Clara Stinson, Victor Riedel, W. M. Wood, Hagan Powell, Sam Loughridge, Bill Eggleston, Floyd Miller and Mrs. John Zimmerman.

Bridal Shower Fetes Miss Schlechter

In compliment to Miss Mary Belle Schlechter, bride-elect of Eugene Philip Ruffolo, Jr., whose marriage will take place Sept. 15, a bridal shower was given at the recreation hall of the First Baptist Church Monday night.

Receiving the guests were the bride to be, her mother, Mrs. Walter Schlechter and the hostesses the Messadems Gladys Williams, Eunice Chambliss, Dalton Harrison, Thomas Forsee, Chris Fugate, Frank Morris, S. M. McAllister and Miss Margaret West.

Background music was played by Miss Kitty Alford and Miss Mollie Forsee sang several numbers, accompanied by Miss Ould Lanier at the piano.

A green and white motif was carried out in the floral arrangements of white hibiscus fern and ivy and the refreshments. The serving table laid with a lace cloth over green held a miniature bride and groom with attendants, a crystal punch bowl, and silver candelabras with lighted tapers.

A large sized beautifully decorated table with red and white centered the gift table which also held lighted candelabras.

Refreshments of openface sandwiches, mince, nuts and white individual cakes decorated with green wedding bells and green punch were served. Assisting the hostesses in serving were the Misses Jo Margaret Parsons, Alice Faye Herring, Janice Cole, Karen Allison, Mary Zavitt Toronto, Canada, and Mrs. J. O. Schlechter.

Others present were the Messadems John Kirk, Sr., and John Kirk, Jr. of West Palm Beach, Merton Rashley, Don Crosby, Randy Forrest, C. D. McClure, Louise Zump, Robert Allen, Jr., Dorothy Hayes, E. W. Scheffler, Genevieve Gove, I. W. West, Clara Stinson, Fritz Stein, Sr., Jack Rashley, H. G. Herring, Robert Enfinger, Jessie Bergman, Pat Burke, Faye Green, Jack Royals, Maude Royals, William Geckler, D. L. Shiver, Milton Carpenter, Rose Steele, Fritz Stein, Jr., Herbert Priest, Bill Burke, W. L. Jones, Paul Kirchman, Dale Norman, C. A. Thompson, Jr., Walter Hooker, Ivan Van Horn, Ernest Mixson, L. P. Parson, Mills Byrum, N. Q. Grier, Margaret Mosley, William Thiebaud, Bill Graber, Donald Sellers, Eddie Maxwell, Also the Misses Sandra Gove, Donna Faye Walker and Leora Geer.

BPW Plans For Board Meeting

A special planning meeting was held Sept. 4 at West Palm Beach for the annual mid-board meeting of the Florida Federation of Business and Professional Women's Clubs, Inc. which will be held there Oct. 17-19 at Hotel George Washington.

The West Palm Beach club will be hostess club along with the Jupiter, Riviera Beach, Martin County, Pahokee, Belle Glade, Clewiston, Vero Beach and Ft. Pierce BPW clubs in District Eight.

Theme of the October meeting will be "Achieve Through Action, BPW In Orbit."

The Sept. 4 meeting was held at the home of Mrs. Cecil Gladys. Special guest was District Eight Treasurer, Miss Dorothy Stevens, Riviera Beach.

Miss Sherry Mixson Entertains At Party

Miss Sherry Mixson entertained at a party for high school and college friends Saturday night at her home on Palm Beach Rd. from 7 to 10:30 p. m.

Dancing and watching the Miss American Pageant on TV was enjoyed by approximately 50 boys and girls. Delicious refreshments were served by the hostess.

Williford-Schlechter Marriage Solemnized In Dandridge, Tenn.

The marriage of Miss Shelby Ann Williford, daughter of Mr. and Mrs. Ralph E. Williford of Dandridge, Tenn., to Walter Edwin Schlechter, Jr., son of Mr. and Mrs. W. E. Schlechter, Belle Glade was solemnized Sunday, August 24, 4 o'clock p. m. at French Broad Baptist Church. The Rev. Ruel B. Pritchett pastor of the French Broad Church of Brothers performed the ceremony.

Traditional wedding music was played by organist, Myrl Kyles. The bride given in marriage by her father, wore a gown of imported hand clipped Chantilly lace, featuring a unique bodice, long pointed sleeves and V scalloped neckline, sequin trimmed. Her veil of English illusion was attached to a lace Juliet cap trimmed with pearls.

Mrs. Juanita Worth, Dandridge, was matron of honor. She wore a ballerina length dress of embroidered organza in white and green with green tulle sash. Bridesmaids were Miss Mary Belle Schlechter and Miss Janice Cole, sisters of the groom, Belle Glade, their gowns were identical to the one worn

floral decorations and the cake. Refreshments of cake and punch were served.

The honored guest was showered with many lovely gifts which she opened and displayed.

Others present were: Mrs. Fred Simmons, Mrs. Edwin Groover, Mrs. Dorothy Hayes, Miss Sandra Gove, Miss Bettie Harrell, Mrs. Frank Prevette, Miss Frank Phelan, Mrs. Paul ment included a song by Mrs. Davidson, Mrs. Bobby Enfinger, Mrs. James McNeill, Mrs. Dick Harrell, Miss Sharon Prevette, Miss Betty Mathis, Mrs. Dortha Strickland, Miss Kay

Shower Compliments Miss Iris McMullen

In compliment to Miss Iris McMullen, bride elect of Donald Eugene Tanner, whose marriage will take place Sept. 21, a bridal shower was given at the First Baptist Recreational Hall, Thursday evening at 8 p. m. Hostesses were Mrs. R. L. Barrett, Mrs. Wes Jones, Mrs. Hobb Gross and Mrs. Willard Whitehouse.

The door prize was won by Miss Sandra Gove. Entertainment, U. W. Malcolm. A color theme of pink and white was used in

by the matron of honor, Janice Ann Williford, Knoxville, Tenn., was flower girl and David Stennet, Knoxville, was ring bearer. Both cousins of the bride.

Johnny Schlechter, Belle Glade was his brother's best man and ushers were Kenneth Bishop, Dandridge, cousin of the bride, and Alvin Schlechter, Belle Glade brother of the groom.

A reception followed immediately after the ceremony at the church. Assisting in serving were Mrs. Freda Thomas, and the Misses Janice Williford, Velma Compton, Thelma Haggard, Vivian Miller and Joan Hart.

After a wedding trip to Key West, Fla., the couple are residing in Dandridge. Other out of town guests in addition to those in the wedding were Mr. and Mrs. W. E. Schlechter, Mrs. John Schlechter, Mr. and Mrs. H. L. Royals, Mrs. Clara Stinson, all of Belle Glade; Mrs. Dorothy Rollins, Hampton, Va., Mrs. Maude Royals, grandfather of the groom, Salem, N. C., Mrs. C. C. Haggard, grandmother the bride, Knoxville, Tenn.

floral decorations and the cake. Refreshments of cake and punch were served.

The honored guest was showered with many lovely gifts which she opened and displayed.

Others present were: Mrs. Fred Simmons, Mrs. Edwin Groover, Mrs. Dorothy Hayes, Miss Sandra Gove, Miss Bettie Harrell, Mrs. Frank Prevette, Miss Frank Phelan, Mrs. Paul ment included a song by Mrs. Davidson, Mrs. Bobby Enfinger, Mrs. James McNeill, Mrs. Dick Harrell, Miss Sharon Prevette, Miss Betty Mathis, Mrs. Dortha Strickland, Miss Kay

Daddy Dick's Expands Lines And Floor Space

Daddy Dick's, owned and operated by Mr. and Mrs. Richard Murray as a children's store at the corner of Avenue A and SW Third, has opened another store across the street on Avenue C, featuring toy, hobby and baby furniture.

Mr. Murray will operate the new store and Mrs. Murray will continue to operate the children's clothing store, at the old site.

Mr. and Mrs. Murray have built a successful business in children's wear and found it necessary to secure more room to expand the service to the youngsters of the Glades.

The Murrys offer to take care of the needs of the tots so

far as clothing and furniture are concerned and invite the public to visit the new store.

Daddy Dick's has already received shipments of Christmas gadgets for the tots as a part of the extensive purchases for the season and are making lay-aways for Santa Claus.

Bids Asked On Roads

Bids for the retreading of SR 80 between Belle Glade and South Bay are scheduled to be opened by the State Road Department in Tallahassee Sept. 23. SRD will also call for bids for retreading SR 717 from SR 15 to the dike.

Contracts have been let by SRD for the retreading of 11 miles of SR 76 from the intersection with SR 15 at Port Mayaca to the Seaboard Railway crossing near Indianatown.

Casually Close

Altogether we traveled 7,511 miles, were gone 44 days, camped out 20 nights, drove through 22 states and 3 provinces in Canada. The most makes we were in any one day was 5—N. J., N. Y., Conn., R. I., and Mass. The travel was just fine and we found that there are only a few minor changes that we will make for future trips.

The whole family feels that we have much to be thankful for—the visits we had with relatives and friends, the beautiful places outdoors that we stayed and saw, the safe trip, and the many interesting experiences we had. We hope we

will be able to take another camping trip next summer.

District Ten Welfare Report

More than 4,000 persons were assisted in the four categories of public assistance for the month of August, reports Thomas E. Penick, chairman of the district 10 welfare board of the State Department of Welfare for Palm Beach County.

A total of 1,677 persons received old age assistance in the amount of \$38,289 and 86 persons received aid to the blind totaling \$4,854. There were 761 families, representing 2,337 children receiving aid to dependent children in the amount of \$47,756.

Last month 127 persons received aid to the disabled in the amount of \$7,109 in addition 168 children received service during the month, 72 of whom were in foster homes.

The total state and local cost for these child welfare services was \$4,974.70. There were ten adoption petitions studied for the Circuit Court.

The Sanders Released From Memphis Hospital

Mr. and Mrs. C. A. Sanders were released from Baptist Hospital in Memphis, Tennessee August 31, after a ten months confinement, according to word received by friends here.

The Sanders suffered severe injuries when they were in-

volved in a head-on car collision while vacationing in Arkansas. Mr. Sanders, who sustained brain concussion, severe cuts, bruises and many broken bones, is still wearing neck and foot braces.

They are spending two weeks in Carthage, Mo., and will report back to the Memphis Hospital for a check-up. Their plans are to be back home in Belle Glade the middle of October if the doctors okay their making the trip at that time.

Faster Mail Service

A new mail service has been initiated between Tallahassee and points south which include Belle Glade, Postmaster George P. Farnall announced here.

The new service transports mail between the two cities about 24 hours faster than before. A letter mailed at Tallahassee at 8 p. m. arrived at Belle Glade in the next day's morning mail at 10:15, Farnall said.

The service works to and from the capital city and users of the mails should be advised of the new quicker rate.

Second District Court of Ap-
peals, William P. Allen.

Order Of Rainbow
Monday night, Sept. 15, the
Order of Rainbow will resume
its regular meetings at the Be-
nevolent Hall at 7:30 o'clock.
There will be an election of of-
ficers. All members are urged
to attend.

**Teachers Reception
Well Attended Monday**

A large number of parents
turned out Monday night for
the first fall meeting of the
Parent-Teachers Association at
the Belle Glade High School
Auditorium.
Mrs. Junius Harris, new pre-
sident, welcomed the guests and
introduced Carl Crawford, new
principal at the Elementary
School, who presented the new
teachers and Pella Morris new
principal of the high school in-
troduced the new high school
teachers.
Mr. Morris stated that 49 to
45 more pupils had enrolled in
the high school during the week
and that equipment for the new
school, which has been lost in
shipping is hoped to be in, in
a short time. On arrival it can
be installed in two days.

THANKS...

To all my supporters in the Constable Race
Your Confidence in me was greatly ap-
preciated.

EUELL B. McSWAIN

THANKS FOLKS!!

It's satisfying to know that fellow citizens
encourage the Younger Generation to serve our
Community in public office!

As strongly as I believe it's the Democratic
Way to OFFER for public office, is my belief
that the winner should have wholehearted sup-
port.

So, I urge you to support our incoming City
Commission for a

BETTER AND BIGGER COMMUNITY
for family living!

Again THANKS!

Lester Clarke

Port Inspection Due

Port of Palm Beach officials
are scheduled to make an an-
nual inspection of Port of Belle
Glade facilities Sept. 18 at 11:30
a. m. according to L. L. Price,
Executive Secretary of the Belle
Glade Chamber of Commerce.

**Pre-School Program
Underway At Park**

Mrs. Gladys McDonald, su-
perintendent of the Municipal
Park, announces the pre-school
program is underway, hours
from 9 to 12 in the mornings
for children four and five years
of age. Children under four
will not be eligible for the
program as Mrs. Clason
who supervised them is not
available this year.

Mrs. Clarence Thorpe will be
assisting Mrs. McDonald. The
regular program will be from
2 to 3 p. m. as usual, Mrs. Mc-
Donald said.

Civitan Guest Speaker

Belle Glade Memorial Hos-
pital Administrator Floyd Mil-
ler, Jr., announced this week
that he would address the Belle
Glade Civitan at Ray's Smoke
House at South Bay next Thurs-
day noon.

Of all knowledge the wise
and seek most to know
themselves. — Shakespeare

**Argument Starts
Over Taxi Fare**

An argument over the pay-
ment of a taxi fare here early
Sunday morning resulted in se-
veral charges being placed a-
gainst a Belle Glade Negro,
Belle Glade Police records show.
According to Lt. V. R. Clark,
Charles Adlerly told taxi driv-
er James (Pal) Miller to accom-
pany him into an alley where
Adlerly would pay for his cab
ride.

In the alley Adlerly brand-
ished a swinging blade, used to
cut grass or weeds, which was
to be "payment" for the
ride. Miller ran to the street
and found Patrolman Ben Mc-
Coy.

McCoy went to the alley
where he scuffled with Adlerly
before subduing him. Adlerly
was charged with assault
with swing blade, assault on a
police officer, obtaining goods
(the ride) under false pretenses
and destroying private prop-
erty.

**Dance At Lake Shore
Friday In Cafeteria**
A "Get Acquainted Fiesta"

will be held Friday night from
8-10:30 p. m. at Lake Shore
cafeteria for all students. The
dance will be sponsored by the
Lake Shore Student Council.
Along with the music of the
dance provided by WSWN Dic-
Jockey Harvey Poin, there will
be an information program.
Willie Lee will provide a de-
monstration of "The Birdland"
a new dance step. There will be
a ladies' shadow get-acquainted
number. Admission is 15 cents.

**"Our 1959 Distributor Appointment
Program Now in Progress"**

"My personal
representative
Mr. Joe Nastav
will be in
Belle Glade Monday!"
September 15, to appoint
a representative.

— Esther Williams, Pres.
Esther Williams Swimming Pool

"Our constantly expanding
manufacturing, service and training
facilities will allow us to serve 500 new
markets in 1959. And since fall is the
best time of year for a distributor to
get into this booming business, my
personal representative is in town to
appoint distributors and dealers in this area.
"He wants to interview men of good
character and strong sales background
who can think big and would like to
grow with a great new industry.
Building experience is not necessary, and
a modest investment in advertising in-
ventory will put you in business—with
my staff of field engineers and sales
men. You will see us to real big-money
profits. Whenever possible, I personally
attend the openings of new dealerships.
"To arrange for an interview, telephone the
number below and give your qualifications."
Thank you.

Telephone Mr. Nastav at WY-6253 Belle Glade
